Nr. of Programme-Interventions: 29

BUDGET: € 13.075.938

MAIN OBJECTIVE

The main aspect of this framework programme is to verifiably improve the living conditions and strengthen rights of marginalized people in 10 partner countries in Africa and Central America.

COUNTRIES: 10

NIC, GTM, ELS, SEN, ETH

UGA, KEN, TZN, MOZ, SSD

RESULTS (per end of 2016)

RURAL DEVELOPMENT - NATURAL RESOURCE MANAGEMENT

Food security, infrastructure and resilience are verifiably improved for marginalized people in 3 Central American and 6 African Countries.

By the End of 2016, about 44.000 persons in 3 countries could get sustainable access to water for consumption and/or production purposes, while about 5.800 persons in 2 countries benefit from improved hygiene conditions. Further, about 194.000 persons in 4 countries now benefit from actions on climate change (cc adaptation or mitigation).

About 30.000 persons in 7 countries have increased food security (e.g. by increasing / expanding sustainable agricultural production and / or gaining access to a more diversified palette of food products), and at least 53.000 persons in 8 countries now get additional income (by e.g. jointly commercializing their products for their markets).

HUMAN RIGHTS - CIVIL SOCIETY

The possibilities to exercise civic and human rights have verifiably increased for marginalized persons and CSOs in 3 Central American and 5 African countries.

Until the end of 2016, partner organizations in 4 countries addressed 1256 cases of human rights violations (mainly against women and children, but also land rights and human rights in general), and, if necessary, referred them to the relevant authorities and further attended to the cases.

In 6 countries, the organized civil society strengthened the policy dialogue with (local) authorities, which led to 3 concrete agreements with authorities.

KNOWLEDGE MANAGEMENT AND ORGANISATIONAL DEVELOPMENT

The partner organisations of HORIZONT3000 and its Member Organisation as well as other cooperation/ network partner improve their performance through services in the area of Knowledge Management and Organisational Development
